History of Long-Range Plan

Long-range planning for an entity that encompasses the range of services and activities of a professional association such as SASFAA cannot occur in a vacuum. Changing responsibilities of aid professionals, new initiatives for service agencies, managing financial support for association goals and new and different needs of the membership affect directly and indirectly our mission, structure, operation and services.

In 1994-95, President Dave Cecil determined that changing roles for financial aid administrators and vendor support for the association warranted a review of SASFAA's purposes and development of long-range plans for membership services and financial support.

He appointed the Long-Range Planning Committee and outlined the following goals and objectives for the committee:

- To develop a proposed recommendation outlining the scope and responsibilities of a Long-Range Planning Committee for SASFAA.
- To assess actual and/or perceived opportunities or threats to the viability of the SASFAA organization, finance, membership or activities.
- To determine if identified opportunities/threats should be examined in detail for referral/assignment to an appropriate SASFAA committee.
- To communicate to the SASFAA membership through the newsletter the role and purposes of the Long-Range Planning Committee.

To accomplish those goals the committee first met in Atlanta, October 14 - 15, 1994 and:

- Reviewed long-range plans from other state and regional financial aid associations;
- Reviewed two previous SASFAA membership surveys conducted by the 1988-89 Long-Range Planning Committee and the 1991-92 Special Projects Committee;
- Reviewed the last five years of the Association's budgets;
- Reviewed the Association's purposes in relation to its goals and objectives.

As a strategy for outlining long-range plans for the association, committee members set as a goal for the year, the preparation of a mission statement and a vision statement, an evaluation of communications to the membership, and an assessment of the association's fiscal stability and reserve funds. A survey was sent to 91 past Board members to solicit comments, suggestions and/or changes to the proposed statements. Of the 91 members surveyed, 23 responded. The proposed vision and mission statements and requests for comments were published in the SASFAA newsletter and also were distributed at the annual conference.

A membership survey was distributed at the conference; 125 members responded and generally expressed satisfaction with services offered. The areas of communications, publications, and training received positive comments whereas questions about newsletter format received negative comments.

The committee met February 12, 1995 prior to the annual conference to review the status of goals assigned to the committee. They also planned and staffed a booth at the annual conference and sought members' opinions about SASFAA and the committee's proposals. The committee met in Charlotte, North Carolina, April 8-9, 1995 to develop an outline of the goals of the association. The outline was divided into sections as follows: Organizational Structure, Collaboration/Communication, Professional Development, and Financial Stability. The Mission and Vision statements were endorsed by the committee and recommended to the executive board and the SASFAA membership at the June, 1995 board meeting. The executive board approved the Mission and Vision Statements at the June, 1995 executive board meeting.

1995-96 SASFAA President Karen Fooks recommended to the executive board the continuation of a Long-Range Planning Committee and outlined the following responsibilities for the committee:

- Complete activities for development of the long-range plan so a draft can be submitted for approval at the November board meeting, final approval by February, and distribution to the membership in the spring.
- Work with the budget, sponsorship and conference chairs to assist in developing a financial plan for the Association in order to respond to the potential loss of sponsorship and make recommendations to the board on how the Association could minimize this effect.
- Work with the treasurer and budget chair to develop/maintain a long-term investment strategy for reserve funds.
- Present a plan by the June board meeting for on- going monitoring of the approved long-range plan.
- Work with the vice president on the development of a long-range training and professional development strategy.

On September 29 - 30 and October 1, the committee met in Atlanta to begin formalizing the long-range plan. The committee reviewed the past eight years of financial statements of the association to attempt to establish patterns of revenue and expenditures. A report of these findings, as well as a progress report on the long-range plan, was presented to the executive board in November, 1995.

The SASFAA Executive Board approved the Long-Range Plan at its February board meeting. The plan was published for the membership in the spring SASFAA newsletter.

Subsequently, the Long-Range Planning committee met May 4 - 5, 1996 in Atlanta and developed a procedure to implement and evaluate the plan.

SASFAA Long-Range Plan Update 2001 – 2006

In 1999 - 2000 the Long-Range Planning Committee began its work by reviewing the 1996 - 2001 Plan. They gathered extensive references on diversity and financial stability in preparation to updating the current plan. The committee exchanged a tremendous amount of correspondence via email. They met once in Charlotte to analyze and propose changes.

The SASFAA Board under the leadership of President Mary Givhan approved the plan at the last Board of Directors meeting in June, 2000 in St. Petersburg, FL. It was implemented and put into action for the 2000 - 2001 year by President Clark Aldridge.

SASFAA Long-Range Plan Update 2006 – 2011

The Long-Range Planning Committee met on October 15 - 16, 2004 in Nashville, Tennessee to review the Long Range Plan which was due to expire on June 30, 2006. The committee met again on February 14, 2005 in Atlanta, Georgia. President Janet Sain had asked the committee chaired by Carol Mowbray to review and propose updates to the existing Long-Range Plan.

To accomplish this task, the committee reviewed the following states' long-range plans: Georgia, Kentucky, South Carolina, Virginia and Tennessee. They also contacted all other regional associations for a copy of their long-range plans. The committee reviewed NASFAA's strategic long-range plan and the document, *A Scan of Our Changing Environment, 2004 - 2005*.

The committee analyzed, reviewed and proposed changes to the current Long-Range Plan (LRP) to be used as a basis to move the plan forward for approval no later than June 2006. The changes in language were meant to eliminate redundancy, address omissions and make the goals more explicit and the objectives more concrete. The SASFAA Board of Directors approved the revisions to the Long-Range Plan November 7, 2004 in Jacksonville, FL.

As a result of its discussions and review, the LRP Committee proposed the following additional related activities be undertaken by SASFAA:

- For SASFAA to develop a survey of the membership by February 2005. In the future, surveys should take place two years prior to the expiration date of the LRP in order to use the results as part of the long-range planning process. The SASFAA Board of Directors approved the development of the survey at its meeting February, 2005.
- That SASFAA hold a retreat to consider environmental factors, the results of the membership survey and other issues which will better position the Association in the next five-year cycle. This retreat should include members of the Board of Directors and other identified leaders within the Association who have served SASFAA. It was recommended that a professional facilitator lead the retreat. The retreat was approved by the Board of Directors at its meeting November, 2004.
- The committee recommended that values such as diversity which are currently imbedded in the LRP be reflected in the core values of the Association. They also recommended that SASFAA identify its core values and add this information to the LRP. The Board of Directors approved this recommendation at its meeting November, 2004.
 - The committee was to write a brief history of SASFAA's long-range planning development for inclusion in the long-range plan to provide a point of reference and context of its development. The Board of Directors approved that the history be included in the plan.
- The committee recommended that the Governance and Planning Committee report be integrated into the planning cycle of each president-elect to strengthen the format and timing. The LRP will propose a model for chairs to use in monitoring the committee's goals in relationship to those in the LRP, to track outcomes and plan on the next steps that are required.

At the SASFAA Board of Directors meeting held on Saturday, February 12, 2005, the draft membership survey was reviewed and changes incorporated. A retreat to be planned and held during 2005-2006 was approved by the Board of Directors.

The committee met in Biloxi, MS, May 17-18, 2005 to plan the retreat scheduled for November, 2005. The committee decided that the activities being planned reflected those of a summit rather than a retreat and changed the name accordingly. The 2005-2006 Committee focused upon planning and implement a Leadership and Strategic Planning Summit that was held in Charlotte, NC November 11-12, 2005. The summit was facilitated by Tara Telfair, University of Virginia Leadership Development Center.

Forty SASFAA leaders and involved constituents of the Association met to review the current issues of the Association. Several of the outcomes were deemed significant enough to warrant action plans:

- Create/develop a *Rising Young Professionals Scholarship*
- Involve New Aid Officers' Workshop participants in structured follow-up and opportunities
- Add/Create a "Best Practices" area on the SASFAA Web site
- Determine the impact of reauthorization/reconciliation on lender support
- Bring SASFAA training into the states
- Acknowledge, track and monitor volunteers
- Involve former state presidents at a greater level
- Reassess SASFAA President's role with the states
- Reassess Membership alternatives
- Determine ways we can create a holistic approach to supporting and strengthening our diversity

The summit participants engaged in activities and dialog designed to develop the core values for the Association. As a result, the committee met one last time April 22-23 in Myrtle Beach, South Carolina to bring to a conclusion the two-year planning cycle for the Long Range Planning Committee. The draft of the core values for the Association and the recommendations and action items will be presented to the SASFAA Board at the transition meeting in St. Petersburg in June.

SASFAA Long-Range Plan Update 2016-2021

The SASFAA Long-Range Planning Committee was tasked with developing a new Long Range Plan for 2016-2021. The main goal of the Committee was to write a strong but easy to follow long range plan to be presented to the Board by the Transition Meeting of June 2016. The first meeting was held via conference call on September 9, 2014. During the first meeting Committee Members were tasked with collecting Long Range Plans from other Regional and State Associations.

Prior to the conference call meeting, each committee member was asked to review the electronic copies of:

1. The 2011-2016 SASFAA Long-Range Plan;
2. SASFAA:
 - g. Bylaws
 - h. Policy and Procedure Manual
 - i. 2014 GAP Report
 - j. 2013-2014 Annual Report
 - k. Final Budgets for 2011-2014
 - l. Membership Survey, 2014

These documents were reviewed and discussed.

On October 30, 2014 a second conference call meeting occurred. Items discussed included:

1. Holding a “Listening Session” at the SASFAA 2015 Annual Conference, held February 23 – 25 2015, for all interested parties. Keith Reeves moderated the session.
2. Collecting information through the development and delivery Board and membership survey

The first in-person meeting was held May 5-7, 2014 in Nashville, TN. After careful review of these materials and lots of discussion we decided that the LRP would be divided into the following sections:

I. ORGANIZATIONAL STRUCTURE

BY-LAWS

BOARD OF DIRECTORS

COMMITTEES

MEMBERSHIP

POLICIES AND PROCEDURE

II. COMMUNICATION

COMMUNICATION

III PROFESSIONAL DEVELOPMENT

PROFESSIONAL DEVELOPMENT

LEADERSHIP

IV FINANCES

FINANCES

V POLICY ADVOCACY

LEGISLATIVE

The final in-person meeting was held October 26-27, 2015 in Miami, Fl. Where the each category was written. After the final mark-up, the Long Range Plan was carefully reviewed to ensure there were no contradictions with the By-laws and Policy and Procedure Manual.

SASFAA Long-Range Plan Update 2021-2026

The SASFAA Long-Range Planning Committee was tasked with developing a new Long-Range Plan for 2021-2026. What started out as a normal progression towards preparing this plan quickly turned into anything but normal. The COVID-19 pandemic of 2020 and 2021 certainly changed everything we knew to be normal.

Quarantines and isolation, prohibitions of public gatherings and travel, virtual campuses, working-from-home, and Zoom became the new normal. As a result, the committee never had a formal meeting – all activity was performed electronically or by phone.

The LRP Committee would like to commend the Executive Boards of the past five years as all of the goals presented in the 2016-2021 Long Range Plan were met at some point during the five-year span. We especially acknowledge the efforts of the 2019-20 and 2020-21 Boards under the leadership of Bill Spiers and Celena Tulloss, respectively. There was no guide to successful association governance during a pandemic for them to follow.

Standard documents used in preparing for a long-range plan were reviewed. As the pandemic continued, however, the committee discussed and decided that some normal things, like updating the usual membership survey, which primarily focused on ascertaining the value of in-person meetings like the Annual Conference, New Aid Workshop, Management Institute, etc. would not garner valid information since the membership had not attended any in-person meetings in nearly a year (at that point) and most institutions had severe travel restrictions. The 2016-2021 LRP was a complete re-write from the previous plans – it was specific enough to be useful and general enough to be flexible. The committee decided to use it as a framework and removed the specific goals that had been completed and add new goals as deemed appropriate.

Also, since the committee does not know what the new “normal” will be in five years, we purposefully did not address in-person versus virtual events in this plan. Therefore, the committee does recommend that this plan be reviewed within a couple of years to see if additional guidance is warranted when environmental conditions have hopefully stabilized.

As a general recommendation, since we have gained a lot of technical knowledge during the pandemic, we do encourage usage of virtual platforms to deliver topics/trainings of interest to the membership on a more frequent basis to enhance the value of membership.

The 2021-2026 Long Range Plan was presented to and adopted by the SASFAA Board on June 20, 2021.
